

# Standard Typeholders

30 | 35 | 44 | 80

In response to the varied requirements of our wide customer base, Allen™ have developed three different designs of typeholder that easily cater for all of your coding and marking requirements. This gives you the versatility and freedom required to print onto your substrates with guaranteed quality and precision. Literally any print format can be catered for.

If your requirements demand an unusual print format, we can design and build a special typeholder, even combining typeholder styles, to meet your exact specification.

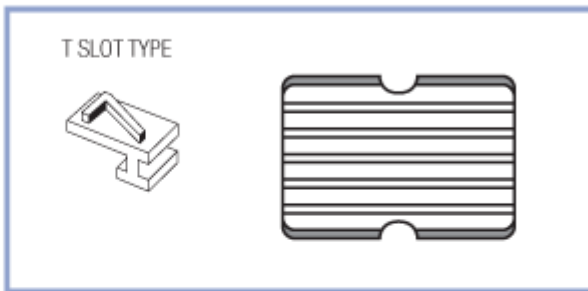

## Features

- Quality engineered T-slot, •918 and Universal Typeholders
- Flexibility in text layout
- Ideal for long production runs
- Engineered to your specifications
- Brass construction that needs minimal warm-up time

## Standard Typeholders

30 | 35 | 44 | 80
